

April 2, 1998

**Re: Ameritech/AT&T SCPA Discussions**

The following is in response to the points raised in Ameritech's March 25, 1998 letter from Mark R. Ortlieb to William A. Davis, II:

**1. Price**

A. AT&T does not agree to the aggregation of services for the purposes of determining applicable rates. The inventory of services for the purposes of this agreement should be the inventory agreed to in section 2 below. For the purposes of Baseline and Coordinated Access arrangements, AT&T is proposing a flat monthly rate as described in paragraph 1B.

B. The following prices will apply to the inventory of Baseline and Coordinated services provided by Ameritech to end-users connecting to an AT&T interexchange service at AT&T POPs in the states of Illinois, Indiana, Michigan, Ohio, and Wisconsin:

	Cable Only <sup>1</sup>	Cable Only	Collocation	Collocation	Collocation
Type of Service	Monthly Recurring Charge	Non-Recurring Charge <sup>2</sup>	Monthly Recurring Charge	Non-Recurring Charge <sup>2</sup>	Installation Charge <sup>3</sup>
DS0 <sup>4</sup>	\$0.21	\$1.38	\$0.50	\$5.96	N/A
DS1	\$5.00	\$33.00	\$12.00	\$143.00	Cost
DS3	\$140.00	\$924.00	\$336.00	\$4004.00	Cost
OC-3	\$420.00	\$2,772.00	\$1008.00	\$12,012.00	Cost

<sup>1</sup>Cable only arrangements are available only in AT&T condominium locations where Ameritech and AT&T jointly occupy the same building.

<sup>2</sup>Non-recurring charges apply to the percent of Baseline and Coordinated services projected at time of installation.

<sup>3</sup>Installation Charges are billed at cost of time and materials to install Ameritech equipment.

<sup>4</sup>DS0 service requires a DS1 handoff and the purchase of M24 functionality from AT&T Tariffs.

C. Non-recurring charges are designed to account for dedicated building and power infrastructure required to support the installation of equipment in AT&T POPs. NRCs will be billed in increments of service based on the initial projections of capacity for Baseline and Coordinated services at time of installation of the equipment.

The installation charge is designed to cover the cost to install Ameritech's equipment in the AT&T POP and will be billed at cost of labor and materials.

D. The prices quoted above are for the space, power, environmental controls and security provided to Ameritech for the purpose of cable only connections and the placing of equipment in AT&T POPs. The Access Connection Charge to an end-user customer covers the cost of the cross connection to the AT&T interexchange service and has not been used in the determination of the quoted prices.

## 2. Circuit Counts

A. AT&T maintains there should be a periodic (e.g., every six months) audit or true up of the inventory of circuits that will be used to bill Ameritech. AT&T proposes the following methodology to determine the circuit count that will be used as the inventory and expects it will be updated until a mechanized ordering, inventory and billing system can be put in place.

AT&T will provide Ameritech a listing of all of the Coordinated circuits in all of the AT&T POPs.

Because AT&T has not inventoried the Access Provider on Baseline circuits, AT&T proposes the following process:

For AT&T POPs where Ameritech is the only Access Provider, 100% of the Baseline inventory to be included in the Ameritech inventory.

For AT&T POPs where there are multiple Access Vendors, AT&T will work with Ameritech to establish an acceptable method (e.g., sampling) to baseline the inventory and true up at the agreed interval.

## 3. Existing SCPA Requests

A. AT&T agrees that Ameritech will have the option to terminate any existing SCPA agreement (without penalty) or maintain it until the term expires as part of any settlement agreement.

B. For any SCPA agreement that is in process of being installed AT&T will determine the extent of completion. The unused portion of the contract non-recurring charges will be refunded in the form of credits to future purchases that can be used to pay monthly recurring or future non-recurring charges that would result from this agreement. AT&T proposes to use the date of signature of the settlement of this matter as the date for determination of percentage of work complete. AT&T will not accept from Ameritech any new SCPA agreements pending the outcome of these negotiations.

For SCPA installations that are complete there will be no refunds of the non-recurring charges; however, the equipment installed under the SCPA can be used for the provisioning of any type of access service, provided Ameritech elects to terminate the SCPA contract. SCPA contracts that are not terminated will continue to be enforced.

Should Ameritech find that it has excess capacity in any AT&T POP that it wishes to reduce, it will agree to remove the oldest spare equipment first and leave in place the newest equipment to supply future requirements for all types of access services.

#### 4. Form of Agreement

A. AT&T agrees to the use of a settlement agreement for all jurisdictions and separate contractual arrangements resembling (but separate from) the existing interconnection agreements for each jurisdiction. The formalities would respond to the requirements of each jurisdiction.

AT&T agrees to provide Ameritech with equipment installations intervals and procedures equivalent to that of any vendor placing equipment in an AT&T POP. Service intervals for individual circuits are quoted to end-users and are not part of this agreement.

CERTIFICATE OF SERVICE

I, Ann Marie Abrahamson, do hereby certify that on this 22<sup>nd</sup> day of April, 1998, a copy of the foregoing "Certification of Settlement Attempts" of AT&T Corp. was sent by prepaid overnight mail, to the party listed below.

Michael S. Pabian, Esq.  
Ameritech  
Room 4H82  
2000 West Ameritech Center Drive  
Hoffman Estates, IL 60196-1025

/s/ Ann Marie Abrahamson

## INFORMATION DESIGNATION

Pursuant to Section 1.724 (f) of the Commission's Rules, 47 C.F.R. § 1.724 (f), AT&T's legal staff conducted a search for individuals within the company with firsthand knowledge of facts relevant to this matter. The search was conducted by identifying and querying individuals named on correspondence, e-mails, and other documents collected in similar cases filed with the Illinois Commerce Commission and the Public Utilities Commission of Ohio. The identified individuals were asked about their knowledge of the facts, documents, data compilations, and tangible things related to this matter. The results of this search are set forth below in this Exhibit D.

## LIST OF INDIVIDUALS

NAME	POSITION	ADDRESS	AREA OF KNOWLEDGE
ARGENTIERI, JUDY	DISTRICT MANAGER	227 W. Monroe Chicago, IL 60606	Issues Advocate for Illinois
BEEBE, DAVID W.	BUSINESS MANAGER	300 W. Wilson Bridge Road Worthington, Ohio 43085	Sales
BENNETT, BRUCE	DIVISION MANAGER	222 W. Adams Chicago, IL 60606	Product Delivery Director in Local Services Division
BLAYER, A.	DISTRICT MANAGER	900 Route 202/206 PO Box 752 Bedminster, NJ 07921	District SCPA Product Management
BRADBURY, J.	MANAGER	1200 Peachtree St. Atlanta, GA 30309	OSS SME for 271 Proceedings
CARROLL, MARY T.	SUPERVISOR	227 W. Monroe Chicago, IL 60606	Bulk Access Orders Total Service Equipment
CHANDLER, DEBORAH	MANAGER	4480 Willow Rd Pleasanton, CA 94588	Access Management
